Neither can you get a crop of coffee by planting the young tree. Prof. Maxwell, in his report of soils, says: "We have seen that climatic differences operate, on the one hand, in removing lime, potash, and nitrogen from the mauka to the makai lands. . . . These observations will not only aid in laying the foundations of a thorough study of the soils of the islands—they must guide us in the matter of fertilization, which merely means the supplying and restoring of elements of plant food which were never there or have been lost."

Find by analysis what is lacking in your soil. To insure a good yield Lime, Potash, Nitrogen, and Phosphoric Acid should be present.

## MEXICAN CABLE.

Built from Mainland to Lower California.

SAN DIEGO, March 1.—Colonel Rafael Garcia Martinez, Governor of the Southern district of Lower California, with headquarters at La Paz, has proposed to the Government to lay a submarine cable from the coast of Sonora to the island of Tiburón, and thence to San Lorenzo and San Esteban on the peninsula, connecting with the new telegraph lines running to Santa Rosalia, Mulege, La Paz and Cape San Lucas.

The project is looked upon favorably, and newspapers at the capital intimate that the cable will be laid not only for commercial purposes, but in order to bring the isolated lower California peninsula in connection with the Central Government.

Zebastian Camancho, Mayor of the City of Mexico, has secured a concession from the Mexican Government to run steamers from Guaymas and La Paz on the north to San Benito in the State of Chiapas on the South, taking in the entire western coast. A mail subsidy is to be paid to the steamers. Mr. Camancho secured the concession as the representative of the Occidental Railroad Company. He has a small line of steamers already running as far south as Manzanillo.

alleged; and in accordance with the laws of the Republic of Hawaii were removed to the Quarantine Grounds of said Port, in accordance with law and for the purpose of inspection, prior to authorizing their landing in the Hawaiian Islands;

That, as respondent is informed and believes, and so alleges, upon such information and belief, due inspection was made by a duly authorized Inspector of Customs, F. B. McStocker, Esq., Deputy of the Collector General of Customs, and that on such inspection it appeared, as set forth in said petition, that all of such petitioners are aliens, and none of them possess the qualifications required by law to authorize them to land in the Hawaiian Islands, either as free or contracted immigrants, because that no one of them had visible means of support, and did not have either the bona fide possession of fifty dollars in money, or a bona fide written contract of employment with a reliable and responsible resident of the Hawaiian Islands;

Whereupon it was decided that said petitioners were not entitled to enter the Hawaiian Islands, and they should be held to await the return of the steamer that they may be deported. Wherefore, respondent prays to be hence dismissed with costs.

### THEY MADE MONEY.

The Japanese Bazaar on the Queen Emma hall grounds Saturday afternoon and evening proved a success in every way. The big lot and building was transformed into a typical Oriental scene. A play, participated in by Japanese was presented and, despite the fact that they spoke the lines in their native tongue, a large audience, composed chiefly of Anglo-Saxons, was intensely interested. The booths were well patronized and a good sum of money was realized on the bazaar.

### COURSE OF EVENING SERMONS.

Rev. Douglas P. Birnie has announced that the following topics will be treated in his course of evening sermons on the creed of the Central Union church:

"Sin and Forgiveness," "Inspiration of the Scriptures," "The Holy Christian Church," "Baptism and the Lord's Supper," "The Lord's Day," "Immortality of the Soul," "The Just Reckonings of the Life to Come."

### WOLTER'S BUILDING.

Judge Perry Gives a Verdict in Favor of Defendants.

The question of jurisdiction raised by the defendants in the case of Peter High & Co., vs. Francis Dunn and E. H. F. Wolters has been decided by Judge Perry in favor of the defendants the court ordering the bill dismissed. The suit was a peculiar one. The plaintiffs had entered into a contract with the defendants to erect a building at a cost of \$4,698. Dunn, the architect, was to act as superintendent and the final payment of 2,800 was not to be made to the contractors until Dunn issued his certificate. When the time came Dunn refused to issue his certificate, claiming that the work was not properly done. High & Co. went into court and demanded that Dunn be required to sign the certificate, alleging his failure to be due to fraud and collusion between the architect and owner. The defendants raised the point in their answer of jurisdiction, claiming that "all and every of the matters in the plaintiff's bill mentioned and complained of are matters which may be tried and determined at law and with respect to which the said plaintiff is not entitled to any relief from a court of equity."

Judge Perry held the point well taken and dismissed the bill.

### Public Opinion

Public opinion is the highest commendation, as is attested by the fact that the Pabst beer exceeded by 49 per cent the amount of beer sold by any similar institution in the world. This famous beer is on draught at the Royal, Pacific and Cosmopolitan saloons.

chance to show his skill. The boys in the rigging and at the rail of the ship kept up such a shouting that the whale made off. The boats gave chase, but not for long, as the monster proved too fast for them. It was lots of fun for the boys."

John Marshall, of Oakland Cal., a member of the crew, was ashore this morning and gave an interesting account of life aboard ship. There are a number of musicians aboard and a concert is the program every evening. Cards, checkers and chess are indulged in during the day but, strange to say, there is no gambling. The pastime is not prohibited, but the men do not care for it. There is a good library in the cabin which is also well patronized.

The Percy Edwards is an old whaler, built at Boston thirty-one years ago, but still staunch and strong. She is 105 feet long, 28 feet beam and draws 10 feet. Her tonnage is 189 net. Before leaving San Francisco the vessel received a very thorough overhauling. The Percy Edwards will continue her voyage this afternoon.

### HIS LAST SALARY.

Warrant for \$4,166.67 Sent to Mr. Cleveland.

The United States treasurer sent a modest looking package to President Cleveland recently. It was an official envelope containing a treasury warrant in his favor for \$4,166.67, being Mr. Cleveland's last month's salary as President of the United States. It was taken to the White House by George L. Larson, a messenger in the treasurer's office, and delivered to Mr. Crook, the disbursing officer at the White House. Following his usual custom the President will indorse it and deposit it with his bankers for collection.

### Genuine Hospitality.

"Talk about hospitality," remarked a broken down actor, "two place to find it is in the far west. The last time I was out there we were playing 'Uncle Tom's Cabin' with a real mule. We played to fair business and paid our bills until we reached Red Bluff. There the owner of the opera house had a piano for an orchestra, and it stood just below the stage. When the mule came on, some one in the audience got funny, and throwing a larlet around the neck of the animal, pulled him off the stage. The mule and the piano got mixed up, which ruined the orchestra, and when he got away from the piano the mule kicked down one of the boxes before he walked through one of the seats to where the fellow with the larlet wanted him. I had a mouth organ, with which I went on with the orchestral accompaniment, and we closed the play with the fellow that captured the mule riding him around the opera house."

"The manager of the theater claimed damages, captured all of the box receipts and we could not get out of town. Of course, we expected to walk, but I'll be blamed if the landlord didn't pack us all with our baggage in a box car, give us plenty of lunch and send us clear to Virginia City without our paying a cent. He was the most hospitable fellow I ever saw." —Washington Star.

### Crockett's Critic.

S. R. Crockett, the "Kailyard" novelist, was waited upon after one of the two or three public lectures he has ever delivered by a heavy, solemn faced Scot, who shook him by the hand in a melancholy manner. "I have read a' your bulks," he said, and after a pause he added, "up to this," Mr. Crockett expressed his thanks. The man was silent awhile and tried again. "You dinna do this for a livin'—" he asked, referring to the recent lecture. "No," replied Mr. Crockett meekly. "I was thinking that," said Mr. Crockett's critic, with still deeper solemnity. —San Francisco Argonaut.

Benson, Smith & Co. desire us to publish the following extract from a letter of Chas. M. Gutfeld, of Reedley, Fresno County, Cal., as they handle the remedy referred to and want their customers to know what a splendid medicine it is:

"It is with pleasure I tell you that by one day's use of Chamberlain's Cough Remedy I was relieved of a very severe cold. My head was completely stopped up and I could not sleep at night. I can recommend this remedy." A cold nearly always starts in the head and afterwards extends to the throat and lungs. By using this remedy freely as soon as the cold has been contracted it will cure the cold at once and prevent it from extending to the lungs. For sale by all druggists and dealers; Benson, Smith & Co. agents for the Hawaiian Islands.

## Sleep

Induced by the use of coca, opiate or narcotic compounds is bad, decidedly bad. It undermines the health and shatters the constitution and the patient is steadily growing into a worse condition—often resulting in the terrible slavery and misery of the cocaine and opium habit.
